

Tender No. 4/2013/SW
Contractors Prequalification for Karak WWTP Project

This addendum shall be considered an integral part of the tender documents.

Addendum No.2

Project: Karak Wastewater Treatment Plant
Tender No. 4/2013/SW

Q1: In reference to the Request for Prequalification application of the above mentioned project, one of the limitations stated in the document is that single applicants need to have at least one Jordanian subcontractor. Can you please advise if the nomination of local subcontractor can be done during the tender phase to allow the contractor more flexibility and time in their selection of the most suitable local subcontractor when assessing and pricing the project which is usually the case.

A1: The subcontractor must be nominated at this stage since it has points in the prequalification documents.

Q2: Will the participating Parent Company be able to consider the experience of its affiliated companies? Please note that the (Applicant) Parent's financial Auditing Reports are not isolated from the affiliated. Please advice and Confirm.

A2: Affiliated companies experience will only be considered if the affiliated company is a partner in the bidder's association and the affiliated company financial reports are presented.

Q3: Reference is made to the Eligibility mentioned in page 5–Request for Prequalification of Contractors. Please confirm that any sub contracting local Company which is classified in wastewater treatment Plants is acceptable regardless to its classification grade within the Ministry of Public Works and Housing. Please advice.

A3: It is confirmed that any sub contracting local Company which is classified in wastewater treatment Plants is acceptable regardless to its classification grade within the Ministry of Public Works and Housing.
